SWIFTReady application:

Evolan International Banking

Evolan International Banking covers all the customer offers and services linked to the international activity of a financial institution. The functional architecture is based on a segmentation of the business which allows the functional coverage to be adapted to needs. The modules : PAYMENTS, TRADE, FOREX, LOANS, CURRENCY ACCOUNT depend on the support functions, including system of reference and common services (messaging, customer communication, Information System exchanges, ...), and make its integration easier.
