

# Introducing Alliance Messenger

*SWIFT Training  
Our knowledge,  
your solution.*

## You will learn how to

- Understand the high-level architecture of Alliance Messenger
- Perform day-to-day tasks for sending and receiving messages

Alliance Messenger is a browser-based message entry package, supporting both FIN (MT) and MX messages. This module introduces you to the interface architecture and illustrates the day-to-day tasks for sending and receiving messages.

## Audience

Everyone who needs to have an understanding about the architecture of Alliance Messenger, and those users who will be using Alliance Messenger to send and receive messages using the SWIFT environment.

## Duration

SWIFT eTraining: 3 hours  
On-site training: as per your requirements

## Prior knowledge

A basic understanding of Alliance Access would be an advantage.

## Course content

- An introduction to Alliance Messenger
- Installation and configuration
- Creating/accepting and modifying messages
- Message reporting
