June 2017

Dear customer,

Our industry is evolving at a rapid pace. Not only do we need to tackle new challenges, but we also need to keep ourselves abreast with the latest best practices, industry trends and innovation. As a financial industry professional, you definitely need to stay on top of your game, more than ever. This can be achieved by regularly refreshing or extending your knowledge through training. With the SWIFT Training offering, we help you get access to useful, up-to-date, accurate and tailored training content, designed by experts. And with SWIFTSmart, we ensure you can get trained whenever and wherever you are. Recently, no less than 16 new courses were added to [our Training catalogue](#) – check it out and stay in the race!

In this changing environment, one element is of primary importance to our entire community: **security**. I strongly encourage you to take advantage of the new SWIFTSmart curriculum on [Customer Security Controls Framework](#). It will help you understand the 16 mandatory security controls and implement the requirements. A module on self-attestation will soon follow.

Finally, we are very pleased to see that our SWIFTSmart user's community is growing every day, now reaching 12,000 users, representing more than 4,000 financial institutions. Click [here](#) to see our press release and the latest demographics.

Pat Antonacci

Head of Services and Support – Americas & UK

SWIFTSmart platform: continuous enhancement

As from July 2nd, SWIFTSmart will automatically be upgraded to version 2.0. This upgrade will be made automatically – no action is needed from you. As part of the new interface, the look and feel of your personal profile will be easier to navigate and customise.

An emphasis has also been put on the user experience with the possibility to create customised training paths, interact with colleagues and rate courses. [Discover the new features](#).

Next to those enhancements, our team of training experts is also putting efforts behind the translation of our training modules into local languages. Today, the majority of the SWIFTSmart courses are now available in 10 different languages: English, German, French, Indonesian, Italian, Japanese, Portuguese, Russian, Spanish and Chinese.

Security Bootcamps

Security Bootcamps: exceptionally extended until end 2017

Following last year's success, additional Security Bootcamp sessions are organised until end 2017. Check out the [available dates and locations](#) and make sure to register on time. This training will help you get a thorough understanding of the security-related roles and responsibilities and provide you with the necessary know-how to manage all activities in line with best practice. Customer Security Programme (CSP): get prepared

Follow the new SWIFTSmart curriculum on the Customer Security Controls Framework and get prepared to implement the mandatory security guidelines in your organisation! [Follow](#)

Tip for HR and Training Managers: integrate SWIFTSmart courses catalogue in your own Learning Management system (LMS)

To facilitate your internal training reporting on course usage and registration, or to create your own training paths, we are providing you an Excel-based file, for ease of import, which includes all available SWIFTSmart eLearning courses in structured fields. [Download here the full Excel-based SWIFTSmart LMS catalogue](#) and visit the [SWIFTSmart group](#) for quarterly updates.

About SWIFT

SWIFT is a global member-owned cooperative and the world's leading provider of secure financial messaging services. We provide our community with a platform for messaging, standards for communicating and we offer products and services to facilitate access and integration; identification, analysis and financial crime compliance. Our messaging platform, products and services connect more than 11,000 banking and securities organisations, market infrastructures and corporate customers in more than 200 countries and territories, enabling them to communicate securely and exchange standardised financial messages in a reliable way. As their trusted provider, we facilitate global and local financial flows, support trade and commerce all around the world; we relentlessly pursue operational excellence and continually seek ways to lower costs, reduce risks and eliminate operational inefficiencies. Headquartered in Belgium, SWIFT's international governance and oversight reinforces the neutral, global character of its cooperative structure. SWIFT's global network ensures an active presence in all the major financial centres.
