

ANBIMA

Standards

“Involvement and partnership with the Brazilian community, Professionalism, Responsiveness, Experienced professionals, commitment to understanding local market needs, ability to provide comprehensive suggestions based on best practices”, Liliane Dutra, Senior Business Analyst, SIBOS 2010

The challenges

- Develop and modernise the Brazilian market
- Integrate institutions that render services
- Standardise information transfers

The solution

- Implement ISO 20022 standards for local post trade securities services in Brazil, leveraging the specific expertise and knowledge of SWIFT Consulting services
- Gap Analysis between Brazilian Market formats and ISO 20022
- Recommendations regarding standards and best practices

The benefits

- Implementation of standardised messaging
- Complete GAP Analysis
- Detailed mapping of 9 Galgo System Flows
