

Watch Banking Insights

Network Management

Business Intelligence solutions

November 2017

Watch Banking Insights

Key Benefits

Gain insights on your performance to grow/maintain your activity share

Monitor your correspondent network and control risk exposure

Improve your operational efficiency and quality of your messaging activity to reduce costs

Watch Banking Insights Dashboards

Watch Banking Insights provides pre-defined, yet dynamic dashboards giving you meaningful and actionable business insights through immediate visuals.

Cash & Payments dashboard

Track the evolution of your Cash Management and Payments activity.

Message Types covered:

- Category 1 - Customer Transfers and Cheques
- Category 2 – Financial Institutional Transfers
- Category 9 - Cash Management and Customer Status

Trade Finance dashboard

Monitor your Trade Finance footprint and portfolio.

Message Types covered:

- Category 4 - Collections and Cash Letters
- Category 7 - Documentary Credits and Guarantees

Network Management dashboard

Manage your Correspondent Network for Cash & Payments, and Trade Finance.

Message Types covered:

- Category 1 - Customer Transfers and Cheques
- Category 2 – Financial Institutional Transfers
- Category 4 - Collections and Cash Letters
- Category 7 - Documentary Credits and Guarantees
- Category 9 - Cash Management and Customer Status

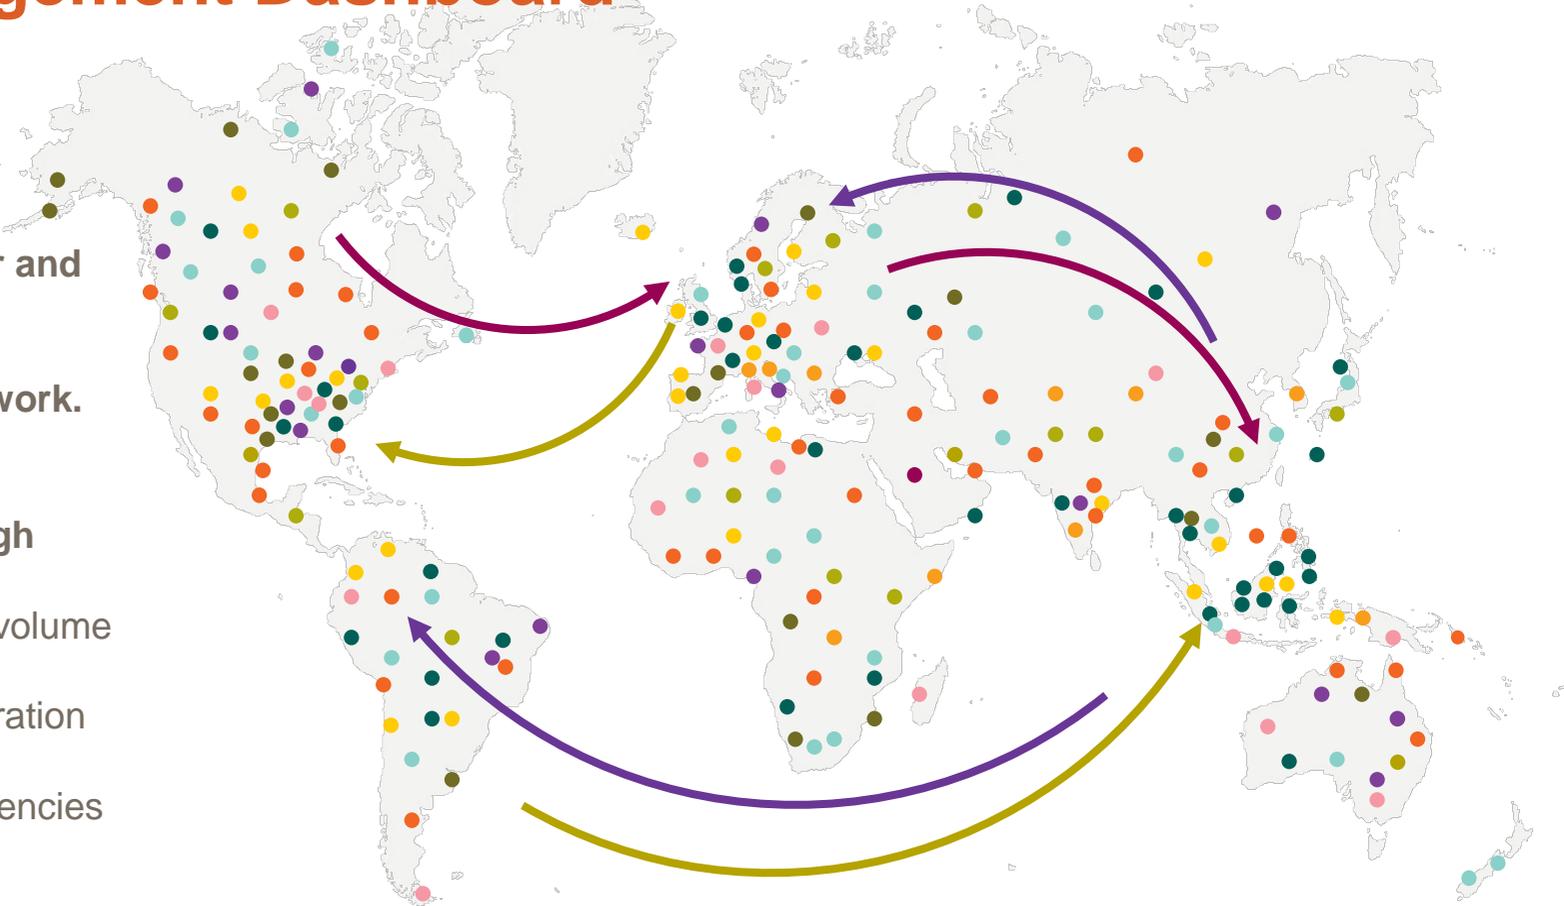

Network Management Dashboard

Insights to help you monitor and improve your business and efficiency across your correspondent banking network.

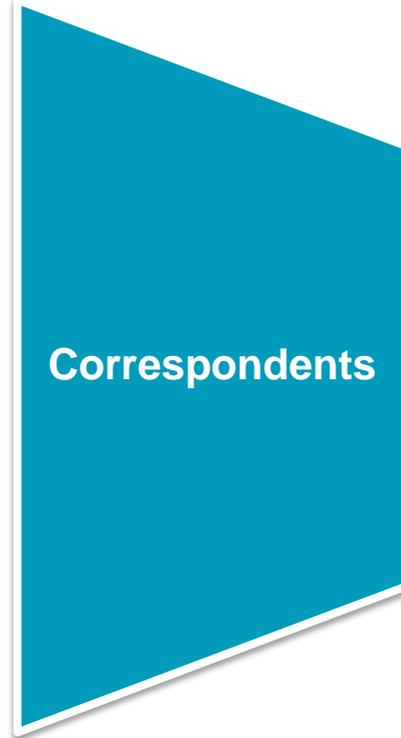

Data can be analysed through various angles:

- Your top correspondents by volume and value
- Regional or country concentration through an interactive map
- Top message types and currencies
- Evolution of your network

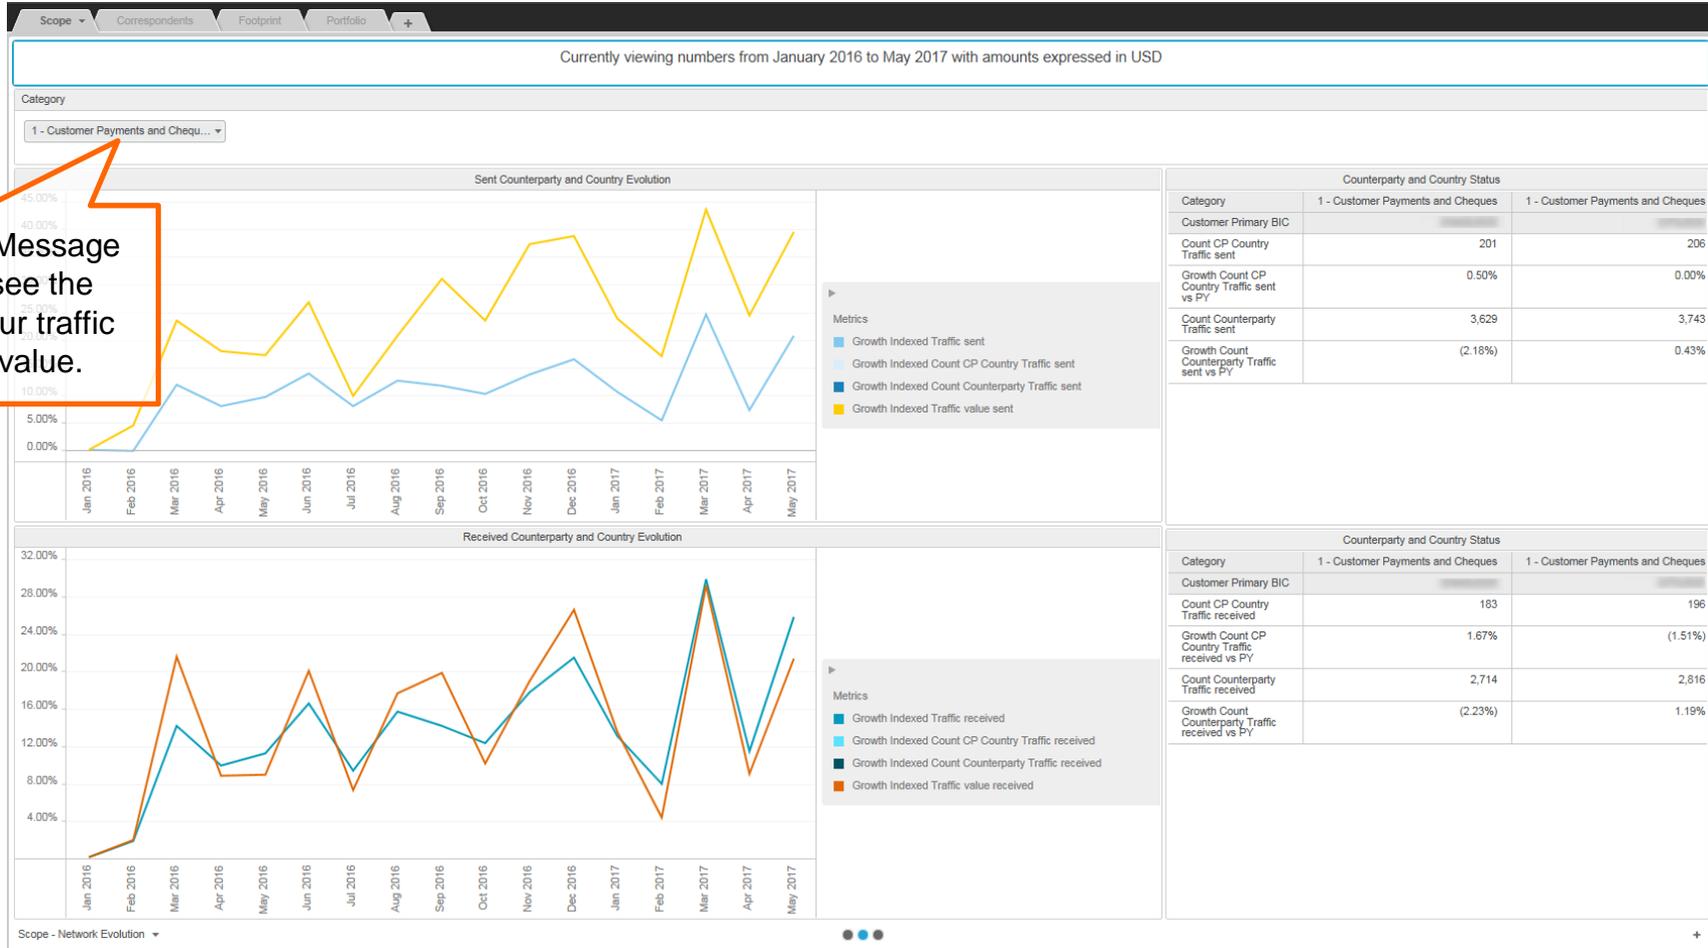

Network Management

Tabs available to deep dive on different views and analysis

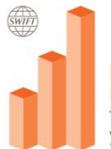

Scope

Evolution and growth of your traffic by volume and value, sent and received

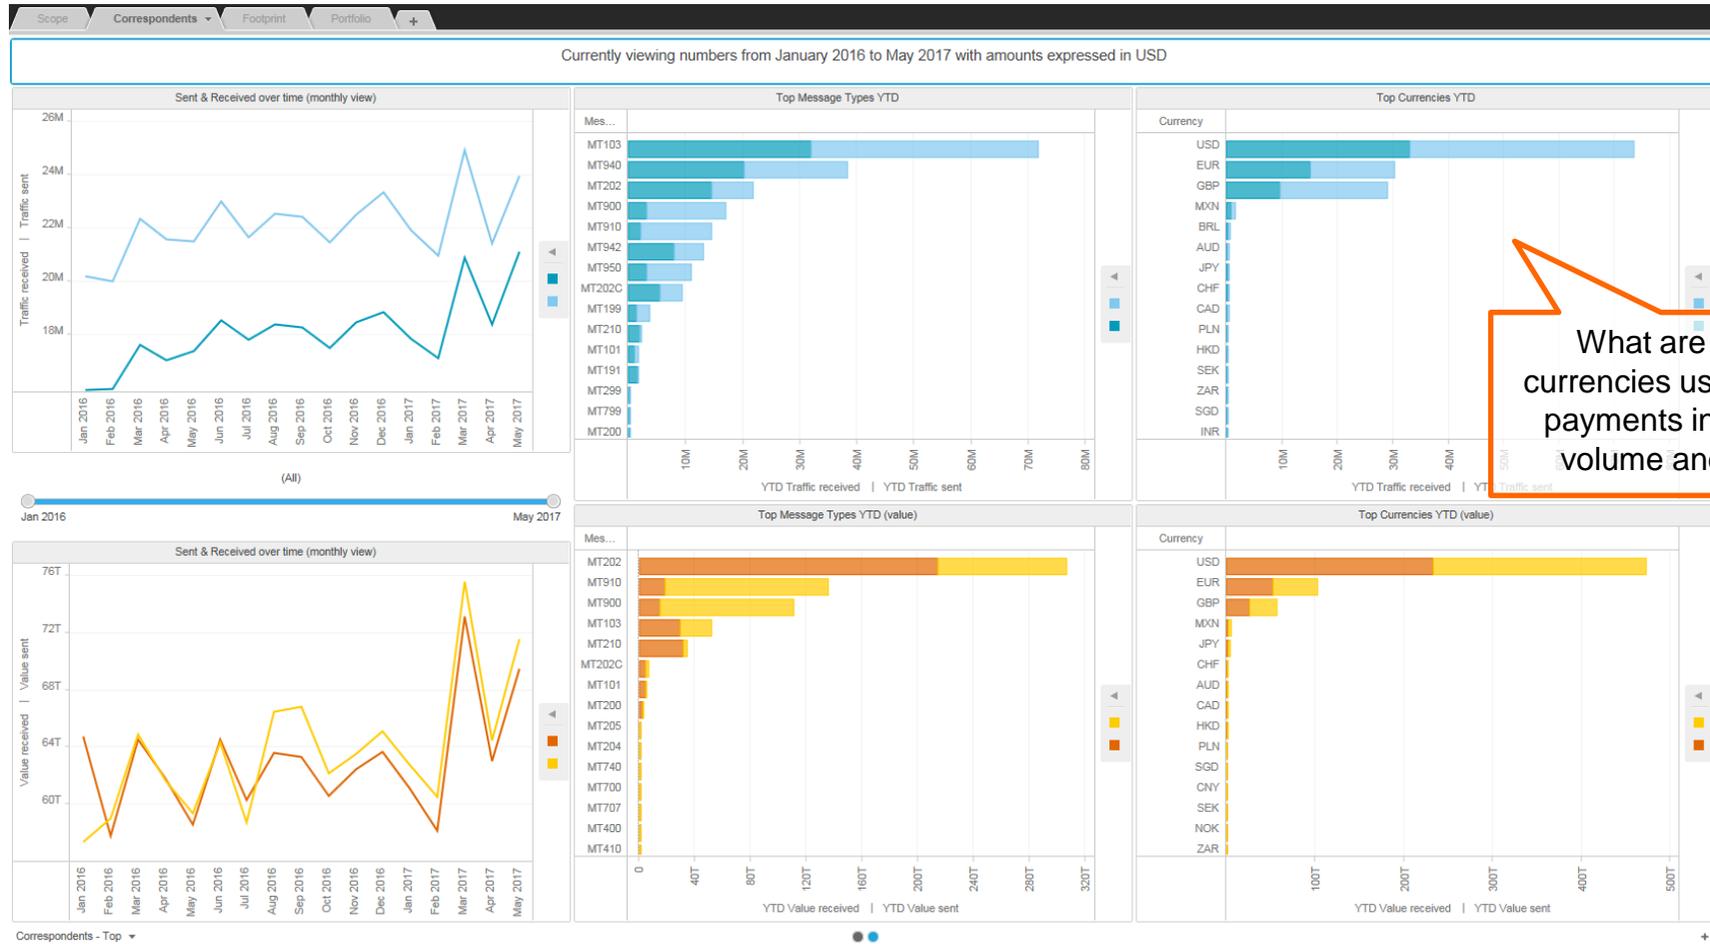

Drill down per Message Category to see the evolution of your traffic volume and value.

Correspondents

Dynamic views on your top message types and currencies

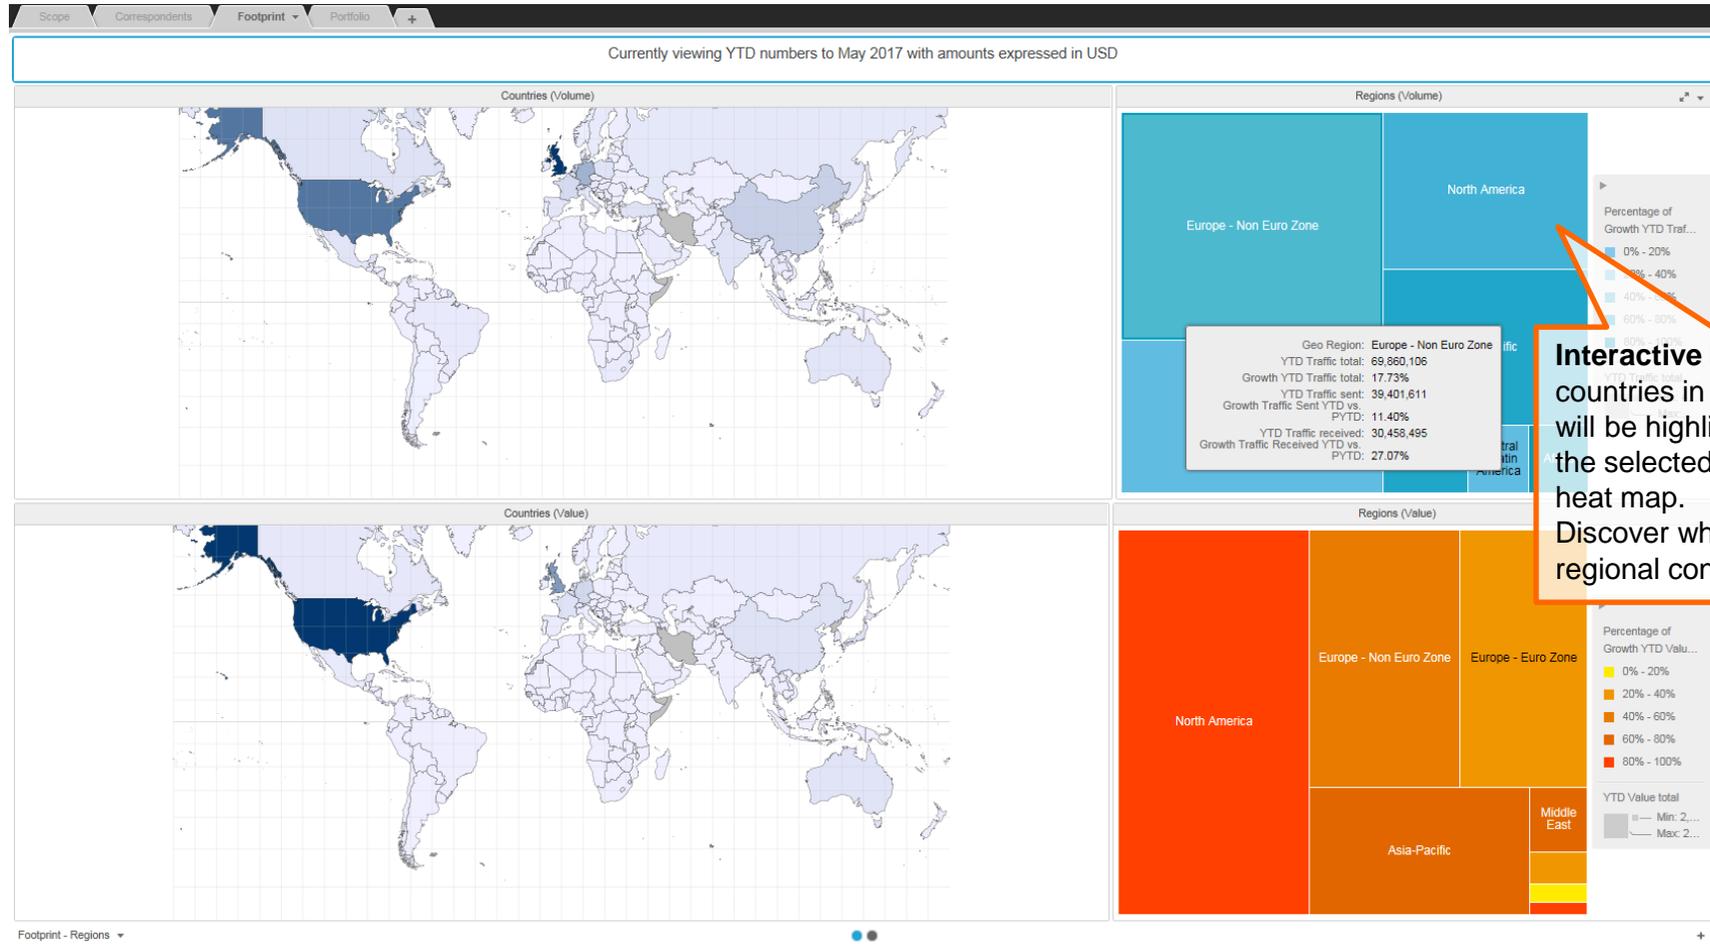

What are the top currencies used for your payments in traffic by volume and value?

Footprint

Interactive heat map to represent your highest regional concentration by volumes and value

Interactive heat map: countries in the world map will be highlighted based on the selected region in the heat map. Discover where your highest regional concentration is.

Portfolio

Monitor your correspondent network and control risk exposure
