

National Bank of Cambodia

Alliance kit implementation

"I'm glad to share National Bank of Cambodia's capability to connect SWIFT directly. Thanks to SWIFT consulting Services team's effort in implementing SWIFT Infrastructure in our premises. I appreciate the professionalism, commitment demonstrated by SWIFT CS team to meet our project deadlines. I'm pleased with the results and the team's ability to provide comprehensive recommendations based on the best practices. We'll definitely consider SWIFT CS services and look forward to work with them for any of our SWIFT related projects."

Ms. Say Sam Ath, Director of Exchange Management Department

The challenges

- Lack of Internal expertise and limited resource with SWIFT skills.
- Require experts for the implementation and overall project management
- Time constraints to meet deadlines (Contract ending with Service Bureau).
- Unfamiliar with the new features of Alliance.

The solution

- Preparation and project plan done by SWIFT Experts.
- Qualified personnel conducting the on-site implementation services.
- Qualified instructor conducting the technical training courses.
- Sharing of industry best practices.

The benefits

- Ability to connect to SWIFT directly and provides more control on the SWIFT infrastructure.
- Highest level of security to business data.
- Helps to increase SWIFT expertise and awareness to internal staff.
- Pave the way for current and future back-office integration.
