Latest news about SWIFT Training offering

eLearning platform goes from strength to strength

Dear Benjamin Lapierre,

Since our transformational shift towards digital learning almost two years ago, we have made great progress. I am incredibly proud of what we've achieved.

There are currently almost 40,000 users on [SWIFTSmart](#) who have access to more than 500 courses. Our eLearning platform is an important tool in the adoption of new initiatives and the dissemination of critical information in the community.

Our regional consultants provide [customised on-site training](#), leveraging the latest delivery methodologies to ensure you get the most out of each session. You can choose exactly what you need from the courses listed in our [training catalogue](#).

Also, early this year, we launched our learning [certification programme](#). Developed in collaboration with key financial players, the programme provides you with clear development targets, and an opportunity to benchmark skills against industry expectations.

I invite you to explore these exciting new offers in our newsletter. Happy reading!

Laurence Bruyndonckx

Head of the Knowledge Office, Marketing
SWIFT

What's new?

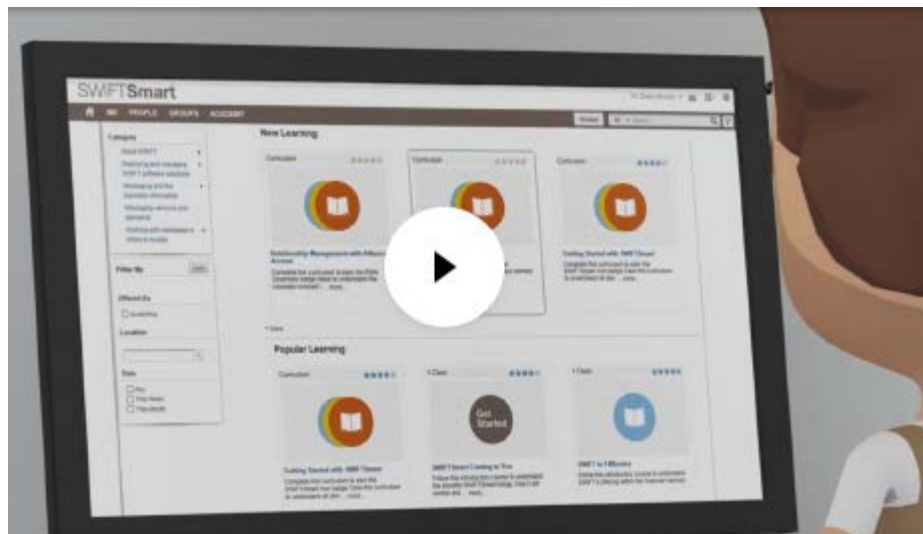

Launched at Sibos:

- ✓ [New SWIFTSmart look and feel](#), improving user experience
- ✓ [Enhanced customer certification programme](#), allowing you to independently proctor your employee exams.

SWIFTSmart Release 3.0

A new release of [SWIFTSmart](#) was unveiled at Sibos. The homepage and the Academy have been redesigned to help you find the content you need even faster. Most courses and curricula are accessible in a single click. Excellent feedback was received on the learning coordinator feature, which allows you to orchestrate your institution's learning in SWIFTSmart.

Enhancement to the customer certification programme

SWIFT is introducing customer proctored certifications. Order your exam directly via [swift.com](#). Your candidates can take their exams whenever it suits them, under the supervision of a locally appointed proctor. SWIFT proctored certifications, delivered on-site by SWIFT consultants, remain available and can be combined with a customised learning event.

Please visit [www.swift.com/certifications](#) or contact your account manager for additional information.

SWIFT Security Bootcamp

Understand the latest cyber threats and their potential impact on your infrastructure. Master the functions involved in the management of a SWIFT environment. Leverage available tools to help secure your SWIFT applications. The [SWIFT Security Bootcamp](#) is a must for Security Officers, CISOs, auditors and risk managers.

Get ready for your self-attestation compliance for the new Customer Security Controls Framework v2019

SWIFT has published the new [Customer Security Controls Framework \(CSCF\) v2019](#), which provides additional guidance and clarification on the implementation guidelines, and includes changes to the existing controls.

Consult the CSCF v2019 to help plan and budget any action required on your part. The CSCF v2019 will be effective in the KYC-SA (the online repository for customer attestations) in July 2019. Attesting compliance against the CSCF v2019 will be mandatory by the end of 2019.

About SWIFT

SWIFT is a global member-owned cooperative and the world's leading provider of secure financial messaging services. We provide our community with a platform for messaging, standards for communicating and we offer products and services to facilitate access and integration; identification, analysis and financial crime compliance. Our messaging platform, products and services connect more than 11,000 banking and securities organisations, market infrastructures and corporate customers in more than 200 countries and territories, enabling them to communicate securely and exchange standardised financial messages in a reliable way. As their trusted provider, we facilitate global and local financial flows, support trade and commerce all around the world; we relentlessly pursue operational excellence and continually seek ways to lower costs, reduce risks and eliminate operational inefficiencies. Headquartered in Belgium, SWIFT's international governance and oversight reinforces the neutral, global character of its cooperative structure. SWIFT's global office network ensures an active presence in all the major financial centres.
