# 1 Introduction

<b>Purpose of the document</b>	The purpose of this document is to provide detailed information on the KYC documents that must be submitted to SWIFT by an applicant during the onboarding process, with a view to increase the acceptance rate and reduce the onboarding timeline.
<b>Intended audience</b>	This document is for the following audience: <ul style="list-style-type: none"><li>- Applicant users that are going through the onboarding process to join SWIFT as a SWIFT user</li><li>- Existing SWIFT users that need to provide KYC documents in the scope of change of category or transfer of BICs</li></ul>
<b>Additional documents</b>	SWIFT reserves the right to request additional documents in the scope of its <a href="#">Know Your Customer validation process</a> . The applicant shall also provide additional documents conditional to the <a href="#">SWIFT user categories</a> in which an applicant wishes to join. Those ones are clearly identified in this document.
<b>Legal background - SWIFT Corporate rules</b>	SWIFT may request the applicant or SWIFT user to provide it with any material documentation to substantiate the applicant's or SWIFT user's compliance with the eligibility criteria and conditions for admission.
<b>Rejection of application</b>	Failure to provide the documents in a timely manner or insufficient evidence of its compliance with the eligibility criteria and conditions for admission may be a cause for rejection of an application file or a ground for SWIFT not to commence the admission process or validate the application.
<b>Disclaimer</b>	SWIFT reserves the right to reject an application based on the analysis of the documentation provided.
<b>Related documentation</b>	<a href="#">SWIFT Bylaws</a> <a href="#">SWIFT Corporate Rules</a> <a href="#">SWIFT Personal Data Protection Policy</a>

## 2 Important notes

SWIFT is a cooperative, and provides its products and services on a common basis to its Community. Therefore, SWIFT's KYC and due diligence process is common and neutral, and all requirements apply to all applicants and are not negotiable. You can find [here](#) a summary description of SWIFT's "Know Your Customer" validation process for the admission of new SWIFT users and continued compliance of existing users with the corporate rules.

To avoid those unnecessary iterations and rework, which has an impact on the full on-boarding timeline, we have listed below some important notes to ensure the documents provided are as expected and required.

<b>SWIFT User Category</b>	<p>As a condition precedent to using SWIFT's messaging services, an organisation must be registered as an authorised SWIFT user under one of the <a href="#">SWIFT user categories</a>.</p> <p>SWIFT has defined a number of SWIFT user categories as set out in section 2.2 of the <a href="#">SWIFT Corporate Rules</a>.</p> <p>An organisation shall join in the SWIFT User category that corresponds to its status (supervised or not), its business activities and future use of the messaging services.</p>
<b>Company name</b>	<p>Documents must be issued at the name of the legal entity that is applying. If it relates to another legal entity or if the company legal name is not properly indicated, SWIFT will not accept it. Similarly, documents mentioning only a different trade name or commercial names are not acceptable.</p>
<b>Change to Company name</b>	<p>In case the organisation changed name in the past, all the documents related to the change of name must be provided. This includes certificates of name change.</p>
<b>Validity date</b>	<p>If there are requirements on the validity date, those must be met. A document which is expired or about to expire in the near future, will not be accepted. This is particularly valid for extracts from the trade registry but also for copies of passports or identity documents.</p>
<b>Official body</b>	<p>The document must be issued by an authority that is the official authority in the country. Documents issued by commercial databases or chambers of commerce do not qualify.</p>
<b>Completeness</b>	<p>The document must be complete. Documents with missing pages or data will be rejected. It is not acceptable to blacken some parts unless for confidentiality reasons and not essential to our validation process.</p>
<b>Quality</b>	<p>For passport copies, full colour, image mode scan or picture directly taken from the original source document, in pdf or Jpeg, of excellent quality (e.g.400 dpi - about 3300 x 4600 pixels for a full A4 page) will only be accepted.</p> <p>Copies of other documents need to be of good quality. Poor quality copies will not be accepted</p>
<b>Signature</b>	<p>Where applicable, documents must be signed by an individual having authority to sign on behalf of the legal entity. Signatures must be identical to the ones appearing on the related ID documents. Signatures that are different or not supported by ID documents will be considered as not valid.</p>
<b>Language</b>	<p>Where applicable, a translation in English is required.</p> <p>If the document does not exist in English yet, the applicant user will arrange for the translation in English. A free translation is acceptable; there is no obligation</p>

	<p>to provide for sworn or certified translation.</p> <p>For lengthy documents such as the Articles of Association, it is acceptable to only translate the most relevant sections of the document such as the articles related to the company name, the term and objective of the organisation.</p>
<p>Recommendation letters</p>	<p>Depending on the category in which the applicant wishes to join, there are recommendation letters to be provided. Those ones must be sent by the recommending entity to SWIFT directly. Recommendation letters sent by the applicant itself to SWIFT will be rejected.</p>

### 3 Documents

For each of the document that is or may be requested, detailed guidelines and requirements are given in below subsections. SWIFT will not validate the admission file until all mandatory documents have been received.

When a document includes any personal data, the [SWIFT Personal Data Protection Policy](#) is applicable.

<b>Exceptions</b>	None
<b>Usual contact within your organisation</b>	Legal department

#### Additional requirements related the proof of authorised signatures:

- The document must be clear and detailed about the signature authority. A document simply showing the internal organisation will not be accepted.
- The document must be issued and signed by someone authorised to grant such authority and SWIFT should be able to check this against official documents. For example, if the document is signed by a Director, SWIFT should be able to find the name of the Director back in the list of Directors or in any official document such as the extract from the trade registry (see 3.1). A simple confirmation from the individual signing the Undertaking will be discarded (eg. “I, Mr X, confirm I can sign on behalf of the company”). Self-attestations are not acceptable either.
- If the evidence is a power of attorney,
  - It must be valid at the time of application. Documents with an expired validity period will be rejected.
  - The scope of the power of attorney must be broad enough to cover the joining process. For example, if the power of attorney is only related to the signature on bank accounts, SWIFT will reject it.
- The signature policy applicable at the applicant organisation must be complied with. If a joint signature is required, then the documents shall be signed by the individuals duly authorised to sign jointly. If it is not the case, SWIFT will reject the document.

<b>Validity</b>	The document must still be valid.
<b>Alternatives</b>	Signatures can be legalised by a public notary. In that case, no copy of an ID is required. This alternative is not valid for SWIFT Security Officers, for which a copy of an official ID must be provided.
<b>Exceptions</b>	None
<b>Usual contact within your organisation</b>	The individual him/herself

#### Additional requirements related the Picture IDs:

- Provide passport copies of the authorised signatories signing the SWIFT Undertaking

<b>Issuance body</b>	The organisation itself
<b>Synonym</b>	– Audited annual accounts – Annual report – Financial statements
<b>Language requirement</b>	English If the audited financial statements are only issued in local language, the applicant organisation shall provide a translation of the audit report into English. No translation of the financial statements themselves is required.
<b>Applicability</b>	Mandatory For branches, it will be the audited statements of the parent company
<b>Validity</b>	The document must be related to the last available financial year
<b>Alternatives</b>	none
<b>Exceptions (unless applicant in NOSU)</b>	Not applicable for organisations that were incorporated less than 18 months ago. See below for details.
<b>Usual contact within your organisation</b>	Finance department

#### **Additional requirements related the audited financial statements:**

##### **What does SWIFT mean by audited financial statements?**

The financial statements must be audited by an external audit firm and according to the International Standards on Auditing (ISA). An audit done by an internal auditor or accountant will not be acceptable.

The audit firm must be recognised locally as a certified auditor. Unless the audit is performed by one of the big 4 audit firms, SWIFT will need to validate that the auditor is duly certified as per the local regulations and registered with an official body/institute of auditors as applicable).

##### **What if the organisation does not have audited financial statements?**

In case the organisation is exempted as per local laws to file audited financial statements, the entity shall then provide:

- Evidence of exemption (statement by an auditor and/or extract of the local law), and
- Financial statements including a limited review (ISRE2410) done by a chartered accountant, or
- Audited statements of the parent company provided the applicant entity is duly included in the financials and audit. There must be clear evidence that the organisation has been included in the audit. This evidence can be a note in the statements or a confirmation from the audit firm. The fact that the organisation is mentioned in the list of subsidiaries does not represent sufficient evidence.

However, should the organisation apply as a Non-Supervised Entity active in the financial industry (see definition in [SWIFT Corporate Rules](#) – Article 2.2.2), then the organisation shall provide audited financial statements as per ISA standards.

In case the organisation is new (defined as incorporated less than 18 months ago) and does not yet have audited financial statements, no audited financial statements need to be provided, except:

- For Corporate Entities owned by a listed company (see definition in [SWIFT Corporate Rules](#) – Article 2.2.3), the audited statements of the parent company provided the applicant is duly included in the financials and audit. There must be a clear evidence that the organisation has been included in the audit. This evidence can be a note in the statements or a confirmation from the audit firm. The fact that the organisation is mentioned in the list of subsidiaries does not represent sufficient evidence.
- For Non-Supervised Entity active in the financial industry (see definition in [SWIFT Corporate Rules](#) – Article 2.2.2), ISA audited financial statements need to be provided (covering the period between their incorporation and the date of application). They can provide the audited statements of the parent company providing the auditors confirm that the Non-supervised entity is included. See above for details.

### 3.9 Financial operating license

<b>Purpose</b>	Initial or most recent official document issued by the local financial regulator or supervisory authority authorising the entity to conduct financial business (banking, insurance, securities, etc) and specifying the type of business and activities that the applicant is authorised to conduct.
<b>Type of document</b>	Official document
<b>Issuance body</b>	The local supervisor/regulator
<b>Synonym</b>	<ul style="list-style-type: none"><li>– Banking license</li><li>– Operating permit</li><li>– Authorisation</li></ul>
<b>Language requirement</b>	Local language + English translation
<b>Applicability</b>	Mandatory for supervised financial institutions
<b>Validity</b>	Must still be valid (especially for operational license issued for a limited period of time)
<b>Alternatives</b>	None
<b>Exceptions</b>	Some regulators/supervisors do not issue specific licenses. In this case, a screenshot from the supervisor website will be required.
<b>Usual contact within your organisation</b>	Regulatory / compliance department / general secretariat

#### Additional requirements related the financial operating license:

##### EU passport

In case the applicant is providing financial services based on an EU passport, SWIFT will check that the authorisation to conduct business has been granted both in the home and host countries.

Even if not required by the supervisor, the applicant shall be established in the country of admission as a legal entity or as a branch.

##### Offshore or international license

An offshore license or international banking license usually prohibits the holder from establishing any business activities in the jurisdiction of establishment. In case the license is an offshore one, the applicant shall also provide a recommendation letter (see 3.10).

##### Provisional license

No application will be fully approved until the full license has been granted. The applicant is welcome to already start the application process and provide the other documents. However, if these are expired by the time the fully approved license is issued, new, valid documents will have to be re-submitted.

##### Representative offices

Given that representative offices conduct activities related to representation of the main organisation, an authorisation granted to a representative office will not qualify as operational license.

##### Prudential supervision

Only licenses issued by recognised supervisors providing prudential supervision will be considered. Licenses or authorisations issued i.e. solely for Anti-Money Laundering purposes are not acceptable as operational licenses.

**License issued at a former name**

In case the license has been issued to an applicant entity that changed its name in the meantime, the applicant shall provide an evidence of change of name as well as evidence that the supervisor has been duly informed (cfr. section 3).
