New FX dashboard in Watch Banking Analytics Premium

As we continuously enhance the FX insights available to you in Watch Banking Analytics Premium, we are pleased to announce our new “**Understand your Foreign Exchange business**” dashboard. These new visualisations will help you understand the distribution of your MT 300 business between different instrument types (e.g.: spots, forwards), as well as allow you to easily identify the currency groups that your FX activities are concentrated in (e.g.: CLS-eligible or G10 currency pairs).

BI at Sibos

Meet us at Sibos this year to discover first-hand how SWIFT Business Intelligence solutions can deliver cutting-edge business insights for your Banking Operations, Payments, Trade Finance, Foreign Exchange and Securities Product Management teams, Sales and Correspondent Network Managers.
