---

SWIFTNet security officers

---

IT staff

---

Security staff

---

---

At SWIFT, we take security very seriously – risk management is integral to our approach. **SWIFTNet PKI** is our core security infrastructure, designed to enable customers to securely access applications and exchange information. This course has been designed to train staff responsible for managing the SWIFTNet PKI of their institution and carry out their tasks with full confidence.

---

SWIFTNet PKI provides certification services to entities, typically end users, applications, and SWIFT

interfaces, enabling them to securely authenticate and/or sign traffic.

**The course covers the following topics:**

- PKI theory in the SWIFT context
- Managing SWIFTNet PKI through the SWIFTNet Online Operations Manager
- Routing rules, management and monitoring
- Reporting and its administration
- Offline security through the Secure Channel
- SWIFTNet Security Officer Certification Exam (Optional)

**The course is delivered by professional trainers and subject matter experts, using a multi-channel learning approach. It combines practical advice and exercises with theoretical modules to give you a well-rounded understanding of the content.**

**SWIFT Customer Certification Programme**

This course is part of the recommended training path to become a SWIFT Certified Expert - SWIFTNet Security Officer. Please refer to the SWIFT certification programme section on [www.swift.com](http://www.swift.com) for more details.

**Practical information**

This course typically takes one day to complete.

SWIFT is a member-owned cooperative, providing secure financial messaging services to more than 11,000 organisations, across the financial ecosystem, in almost every country in the world. For nearly five decades we have delivered certainty, continuity and excellence by constantly evolving in an everchanging landscape. In today's fast moving, increasingly connected and challenging world, this approach has never been more relevant.
