D. Purpose of the change:

This section must explain why the CGI-MP normative deliverable needs to be changed. The reason for the update may be a business reason, a technical reason, a regulatory reason or the extension of the user community (newly identified business requirements).

Fourteen changes to acmt.015.001.01 are meant to fix errors, harmonize across banks, and ensure consistency across all eBAM Message types.

See purpose of each change in table above.

E. Urgency of the request:

If there is a need to have the new version of the related normative CGI-MP deliverables published earlier, the reason for the urgency should be described here. Acceptance of such an unscheduled maintenance is subject to approval of the CGI-MP Plenary.

Normal priority

F. Business examples: If possible examples illustrating the change request.
